

iPad Charge & Sync Trolley

Compact, universal and easy to use

The **zioxi** iPad Trolleys and Cupboards provide the ability to smart charge & sync 16, 20, 32 or 40 iPads and all USB tablets - with only short lengths of USB cables presented and retained at the front of each shelf, a lockable compartment for a MacBook or Mac mini; and all in a very compact, unobtrusive unit.

Key features:

- Apple MFi certified, UK designed & manufactured, intelligent universal charge & sync
- Charge & sync electronics with firmware that can be upgraded (free of charge) when necessary to accommodate new Apple iOS & Configurator versions and any new USB devices
- Large shelf size to accommodate any standard case design, including the Griffin Survivor & Otterbox Defender
- Unique **zioxi** cable management ports which present & retain only a short length of USB cable at the front of each shelf - so cables are all neat & tidy, very simple to connect and can't go missing
- Doors fold right back (270 degrees) and are retained open or closed by magnets
- Lockable doors with digital code or key lock options, lockable castors and handle cut outs to help you steer
- Separate lockable, powered storage compartment for a MacBook or Mac mini and accessories (16 & 32 models only)
- Available in compact trolley or cupboard variants, as integrated modules within the **zioxi** TeacherWall and CubeWall product ranges and in charge only variants

iPad Charge & Sync Trolley

Shelf dimensions:

The iPad trolley is designed to accommodate iPads, USB tablets and eReaders up to 10" screen sizes. The shelf aperture size is 310d x 210w x 34h (mm) - big enough so you can leave your iPads and tablets in their cases, but best to check your device dimensions (including power connection) before ordering.

Construction	White melamine-faced MDF carcass and doors, green steel electrical compartment cover. White compact laminate top with handle cut-outs (trolley versions only).
Charge & Sync	Requires 1 power socket (UK and EU supported, others by request). Intelligent, universal charge and sync technology detects each connected device and determines the optimum charge settings - so each device will charge just as fast as if it were plugged directly into it's charger. Supports any device which is USB chargeable. Sync connection to a host laptop or PC is via 1 USB cable (16 devices) or 2 USB cables (20, 32 or 40 devices) - these host sync connection USB cables are supplied. <i>(Individual iPad & tablet USB cables are required but not included).</i>
Warranty	5 years (2 years for electronics)
